## BUSINESS SUMMARY

United One Communications is a solutions provider specializing in cybersecurity, systems engineering, network operations, and program management services for government and commercial customers worldwide. We have the capabilities to operate across the United States and overseas. We strive to win business and repeat business by following our six "Rs": Requirements, Reliability, Responsiveness, Recruiting, Retention, and Reputation.

## MISSION

We provide mission-critical information technology solutions to government and commercial customers by combining advanced technology and application knowledge to offer a superior value proposition.

## DIFFERENTIATORS

**REQUIREMENTS** – We understand the customer's requirements and then develop our own to determine what type of skills we need to attract.

**RELIABILITY** – We can be depended on to meet the customers' requirements.

**RESPONSIVENESS** – Not only to our customers but to employees and teammates.

**RECRUITING** – We ensure qualified candidates are hired.

**RETENTION** – We focus on retaining the right people.

**REPUTATION** – This leads to more business opportunities.
